Nexus is conveniently located approximately midway between Sydney, Melbourne and Canberra on the major transport corridor (the Hume Freeway) between Sydney and Melbourne. Our Head Office is less than one hour's flight from Sydney, Melbourne and Canberra.

Located on the mighty Murray River (the border between New South Wales and Victoria), Albury and its twin city Wodonga are the major service centre of Southern NSW and North East Victoria. Albury-Wodonga is one of the fastest growing regional centres in Australia and the chosen location of some of Australia's premier companies and industries. Wodonga is a designated Learning City, and Albury-Wodonga are amply serviced by a large number of private and state schools and two major universities.

Wangaratta is less than one hour's drive south of Wodonga. A flourishing and beautiful city, it is a major retail and service centre and home to industries such as wood manufacturing, food manufacturing, and computer manufacturing.

Within easy driving distance are Australia's premier ski slopes and the region is famous for its wine and food products.
