

IntraLearn elearning Software

Overview:

intralearn
s o f t w a r e

enterprise-class, field-configurable software application that makes it easy and affordable to create, deliver and measure interactive learning over the Internet and intranets.

IntraLearn is the leader in shrink-wrapped elearning applications. More than 530 corporations, academic institutions, schools and associations use IntraLearn to provide elearning to millions of learners world-wide. IntraLearn combines the functionality of expensive Learning Management Systems (LMS) into a single

Nexus Consulting Services has been appointed as an Accredited IntraLearn Reseller Partner (AIR Partner). AIR Partners are appointed for their expertise in elearning and their ability to add value to clients through on-services in human resource management, and training and development. As an AIR Partner, Nexus is here to ensure the seamless integration of the IntraLearn software into your organisation, to facilitate its implementation and configuration, to provide HR and training and development services that augment the IntraLearn software, and to provide post-sales technical support.

Memberships:

By actively participating with leaders in the technology training and education markets, IntraLearn will continue to drive the latest trends and technologies in the industry. IntraLearn's current certifications and memberships include:

IntraLearn is the first Windows 2000 Certified elearning provider to achieve Microsoft Gold Certified Status.

As a Gold Certified Partner in the Software Products category, IntraLearn has satisfied rigorous certification criteria and proven its expertise in elearning by providing real world solutions to more than 450 organisations. This designation has more stringent requirements than the Partner certification and offers greater Microsoft support for members.
