

Examples of Success Stories

- **Laborers-AGC** and **EDS** are using the IntraLearn platform to complement hands-on training facilities by offering online courses to almost 100,000 construction workers.
- **Dynamic Learning Online, Inc.** provides online training to **healthcare professionals**. IntraLearn SME allowed Dynamic Learning Online to reinvent their delivery and repurpose stand-up training to healthcare professionals, occupational, physical, and speech therapists, and social workers while meeting client requirements for certification and compliancy.
- The **University of Massachusetts** at Lowell used IntraLearn, Microsoft and the Internet to create the highly acclaimed distance-learning program, CyberEd.
- The **American Society of Association Executives (ASAE)** has been providing management courses to its membership through multi-day, face-to-face conferences for over 20 years. IntraLearn and CertiLearn helped to bring the ASAE's School of Association Management online.
- The **City of Rome, Italy** has 27,000 employees that need to be current on policies and procedures. They are using IntraLearn to keep the city's workforce well trained.
- **Citibank** in Singapore needed to train new and existing employees on new products and policies on a continuous basis. IntraLearn was chosen to help meet this challenge.
- **Parker-Chomerics** has a large number of products and a large and dispersed sales force and distributors. It was IntraLearn's integrated content creation, tests and collaboration tools that helped address their training issues.
- **Staples Canada** has 200 stores across Canada and needs to train employees on how to sell products offered by the chain. InsightU teamed with IntraLearn to produce specific training to help Staples address their training need.
- **Trillium Lakelands** is a school district that encompasses a large geographic area North of Toronto, Ontario. This case study showcases its ambitious Virtual Learning Centre (VLC), a new initiative that seeks to offer alternative and enhanced distance elearning opportunities to students.
